

I am deeply disturbed by this partisan political trick being played by Sinclair Group, and feel that our democracy is being undermined in this country. The owner of this group, who is Republican, is aiding the Bush administration with a free ad during prime time. If this is to be allowed, than the pro-John Kerry film must be shown at the same time, immediately following, or the next night at the same time as an offset. Either way, the Sinclair Group is anti--American in it's action, and should be closed off the air.
